

“We grew franchise sales 300% in 14 months”

Convert Leads Faster

“Before switching to ClientTether, we were stuck using an aging franchise CRM with basic email drips, poor integrations, and manual outreach.

Now, the powerful automation in their platform does 70% of what our team used to be doing manually. The combination of emails, texts, and calls have increased conversions exponentially.”

See Everything

“Ultimately, we had to leave our previous CRM, because they couldn’t show us where we were losing candidates and what our conversions were per stage in our sales process.

I needed the data, the board wanted the data, and they simply couldn’t provide it.

Now in ClientTether, we can effortlessly see everything.”
